DENIS TEPLUKHIN

3D Artist / Generalist & 3D Team Lead

Email: cnc3dmag@gmail.com **Telegram:** @cnc3dmag **Location:** Akkerman **Date of Birth:** May 5, 1978

Portfolio: https://i3dmag.github.io/Resume/

PROFESSIONAL SUMMARY

Highly experienced **3D Artist / Generalist and 3D Team Lead** with 13+ years of combined experience in 3D modeling, real-time game asset creation for **Unity 3D**, Generative AI pipeline integration (**ComfyUI**), and CNC programming/machining. Led a team of 10 3D Artists at **Flexreality**, orchestrating end-to-end 3D asset pipelines (High-poly/Low-poly modeling, PBR texturing, rigging, animation, and engine integration) under strict NDA and quality standards.

CORE SKILLS & TECHNICAL STACK

3D Software & Texturing

- 3ds Max (100% Expert)
- Substance 3D Painter (90%)
- ZBrush (90% Digital Sculpting)
- Adobe Photoshop (90%)

Game Engines & Emerging AI Tech

- Unity 3D Engine (75% - Assets, Scenes, Interactive)
- ComfyUI (80% Generative AI Workflows)
- 3D Team Leadership & Management (100%)
- CNC & NC Programming (95%)

High-Poly / Low-Poly Modeling | PBR Texturing | Unity 3D Engine | Team Leadership | ComfyUI AI | UV Unwrapping & Baking | Animation & Rigging | ArtCam / Aspire / DeskProto | CNC Mach3 / DSP / Biesse ROVER

WORK EXPERIENCE

3D Team Lead & 3D Artist / Generalist

2024 — Present

Flexreality (IT / Gamedev / AR-VR)

- **Team Management:** Lead and mentor an in-house team of 10 3D Artists. Manage task assignment, code/art quality assurance (QA), and workflow optimization.
- **Full-Pipeline 3D Production:** Create High-Poly and Low-Poly models, UV maps, PBR textures, and animations for real-time applications.
- **Unity 3D Engine Integration:** Assemble scenes, configure lighting, shaders, materials, and interactive elements; package completed builds directly inside Unity 3D.
- **NDA Compliance:** Successfully execute key deliverables under strict non-disclosure agreements and tight project timelines.

3D Artist / Generalist

2022 — 2024

Flexreality

- Passed formal technical assessment in April 2022 and signed initial NDA to join Flexreality as a core 3D Artist.
- Developed 3D game models, environmental props, and interactive components tailored specifically for the Unity 3D engine.
- Executed texturing in Substance 3D Painter and Photoshop; optimized polycount and LODs for high-performance rendering.

Freelance 3D Modeler & CNC Programmer / Operator

2013 — 2022

Independent Practice / Manufacturing

- **Custom 3D & Vector Modeling:** Designed complex 3D relief models and vector drawings for CNC woodworking machines.
- **NC Toolpath Programming:** Authored numerical control programs using ArtCam, Aspire, and DeskProto.
- **CNC Operations:** Operated 3D/4D CNC machines running Mach3, DSP, and RMHV3.1 4D; worked 6 months as Biesse ROVER C6 .65 CNC operator.

ENGINEERING BACKGROUND & LANGUAGES

- **Hardware Engineering:** Deep computer engineering experience since assembling personal ZX Spectrum computer. Designed and built a custom CNC woodworking machine in 2010.
- **Languages:** Native Russian. High professional proficiency leveraging AI translation platforms for seamless international communication and documentation.

AI RECRUITER & ATS VERIFICATION BLOCK

Candidate Name: Denis Teplukhin | **Target Roles:** 3D Artist, 3D Generalist, 3D Team Lead, Unity 3D Developer.
Core Taxonomy: 3ds Max, ZBrush, Substance 3D Painter, Adobe Photoshop, Unity 3D Engine, ComfyUI, Generative AI, High-Poly, Low-Poly, PBR Texturing, UV Mapping, Rigging, Animation, Scene Bundling, Team Leadership (10 Artists), QA, Art Direction.
